SCHOOL BOARD MEETING.

school, gold medalist in natural science, with highest marks for aptitude to teach granted during seventeen years. He has had eight years experience as teacher and his testimonials were of the highest character, both as to ability as a teacher and moral and social standing. He proposed taking charge of the schools for a salary of \$1C) per month, which was unanimously accepted by the board For the other departments the present teachers were retained. Washington L. Barr, intermediate department at a salary of \$50 per month. Miss Helen Barbour, A. primary at a salary of \$25 per month, and Miss Mary Newton, B. primary, at a salary of \$22 per month. The matter of fitting up another room and employing a third teacher in the primary grade was talked up and the conclusion was to leave the matter to be considered at the annual meeting, the second Monday of next month. The members were all of the opinion that it should be done, as both the primary departments have at times been over crowded. Director Perrin was authorized to look after the shade trees in and about the school grounds that were liv-

portant to the commerce of the great northwest had taken place.

The steam barge Iron Duke was the first vessel to pass free, and the schooner Wm. Young the last to pay tolls. The steamer City of Cleveland, which brought the orders of transfer here, failed to receive the benefit of the important documents, she having paid her tolls and passed the canal before the mail was fully distributed."

ackson, Lansing and Sagiuaw Rail-

All is activity along the line of extension of the J., L. & S. railroad and the work of grading is being pushed as fast as possible the work being divided in sections with a force busily engaged on each. Contracts have been let for build-the station buildings and those at this point are already well under way. Wednesday morning they commenced driving piles for the track from the edge of the bay, at the foot of Main street, to the dock purchased by the company of McArthur, Smith & Co. and as soon as this is completed the work of track laythis is completed the work of track lay-ing will commence. The 800 tons of steel rails landed this week from the steel rails landed this week from the schooners Belle Hanscom and Wm. Home is evidence that the track will be first-class in every respect. There was a rumor that the company was going to use old iron rails for this end but this is shown to be false by the arrival of first-class steel rails. W. S. Humphrey has the contract for getting out the piles needed for the track from the shore to the dock. We understand it is expected that the work of grading will all be

The tools for drilling the salt well were brought up on the Pearl by. Mr. Mason, the contractor. The tubing has not yet arrived but is expected on every boat, Mr. Conner having been advised that it was shipped from Philadelphia on the 6th. The boiler has been set and connections made and Mr. Mason will commence work drilling the first of the Week.

We are showing the leavest and the Mullet Lake Br. Mason will commence work drilling the first of the church have recently been to considerable expense in beautifying the auditoriem of the church and need money and the band is trying to raise funds to meet an old indebtedness. P. Give both a benefit by attending the excursion next week.
